

ECD President Update September. 2017

Reminder: **ECD Fall Conference** on Wednesday, September 27, 2017
@ Horizon Conference Center in Saginaw. We start @ 10am.

Now that we are really into September I am hoping you have been contacted or are the person responsible for the form for the ECD Fall Conference. I am extending the deadline to Friday, Sept. 15. I know some are aware of the conference but need to find that specific person at your hospital who will add your name to the list. Be sure to indicate which office each attendee holds/or indicate as a general member on the form.

We truly recognize your support, its importance, & the work you do at your local hospitals.

McLaren Stroke Network will be presenting. We all know someone who has suffered a stroke or something similar. It is amazing what services are out there that can reduce the damage and diagnose the issue very quickly. Please consider coming and become further educated on this topic. McLaren Health Care's telemedicine service provides patients with enhanced in-house stroke care and 24/7 access to highly specialized interventional neurologists who can provide advanced therapies for patients with strokes and aneurysms. The McLaren Stroke Network is the only program in Michigan- and one of only a handful in the nation- where every stroke patient is seen by a stroke trained interventional neurologist in minutes...any time of the day or night.

We always read the ECD Conference evaluations & work to accommodate some of the suggestions. Be sure to come and see what we will have planned for the day.

Everyone appreciates those unique Gift Baskets for the giveaway. \$\$\$50/50 Raffle.

Get out there and enjoy this wonderful Fall Season! See you Wed. Sept 27th.

Jeannette Smith
