

Sparrow Carson Hospital, formally Carson Health was founded in 1936 by Dr. Emmitt Binkert. Sparrow Carson Hospital is a subsidiary of Sparrow Health System, a member of the prestigious May Clinic Care Network. As mid-Michigan's premier health care organization, Sparrow includes hospitals in Lansing, Saint Johns, Ionia and Carson City as well as Physicians Health Plan, Sparrow Physicians Health Network, the Sparrow Medical Group and the Michigan Athletic Club. Sparrow is affiliated with Michigan State University's three human health colleges. Through these partnerships and the dedication of our 10,000 Caregivers, Sparrow pursues a vision to be nationally recognized as a leader in quality and Patient experience.

The Auxiliary's Board is made up of both elected and appointed officers. Along with the general membership these women work hard each year to raise money to help Sparrow Carson uphold their mission. Established in 1982, the Auxiliary has been very active over the past 33 years. Members sell popcorn, host numerous fundraising sales, have hosted large galas and ran the hospital gift shop to raise money. These efforts make it possible for them to purchase everything from medical equipment, to furniture, to gifts for new moms and babies in the Obstetric Department.

Something that membership felt very passionate about was also giving to the youth in the community who were interested in a health related field. So, four years ago they started a scholarship program assist and encouraging high-school students into the medical field.

Choose Wisely. Choose Sparrow.
